## Powerful Purification with Plasma Technology

- 1 Release ions**  
Forms the ions negatively or positively into the air
- 2 Neutralize**  
Ions actively neutralize the odors causing molecules, allergens, virus & mould spores
- 3 Form water vapor in the air**  
Ions form as water vapor into the air

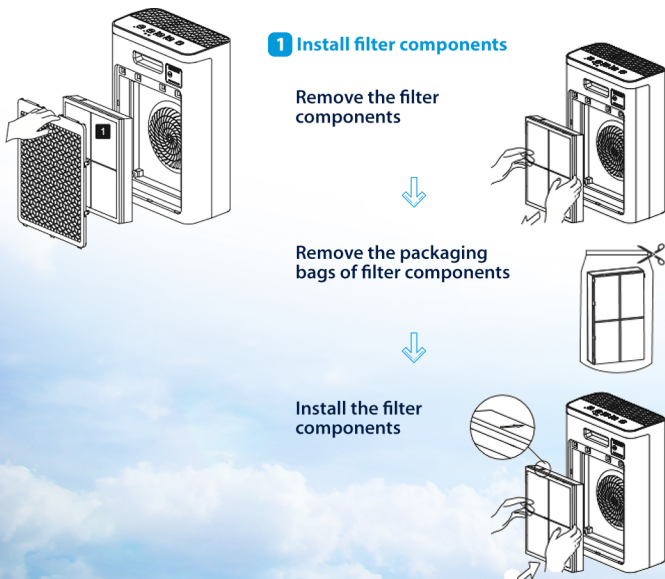

## Powerful Purification with Negative Ions Generator

When running the Turbo mode, the negative ions generator will start automatically to eliminate odors, dust, smoke and pollen particles, making the air highly refreshing and clean in a short time.

## Features

- Better breathing
- Fewer asthma triggers
- Better sleep
- Prevent Dust
- Remove smoke and its odors
- Small to medium Purification

## Easy & Quick Installation

### Tips:

Do not clean filter with water.

Recommend to clean filter with small soft brushes or household cleaners.

In the use of a strong smell of cigarettes, barbecue, etc., within a few weeks or months, the filter may produce a smell. Please clean the filter and air filter for 2-5 days. If you still can not get rid of the smell, please replace the filter.
